HAVE YOU A FARM TO SELL?

Do you know that capitalists are buying land in the mountains more than ever? What becomes of those who sell? They invariably buy a blue grass farm if they can. If you have a farm to sell let it be known in the Jackson Hustler and secure a purchaser who will pay you a good price. Act while the rush is on. Write for advertising rates. They are moderate.

DRIVING ROD BROKE.

As the north bound L. & N. Freight was nearing Keller's bridge near Cynthiana Saturday afternoon, the driving rod broke on the engine and smashed in one side of it. Fireman P. E. Yelton, who was shoveling coal into the fire box at the time, hearing the noise, jumped and rolled down a forty foot embankment, skimming his face and bruising his body. The engineer stayed at his post and succeeded in stopping the train after passing over the bridge. A number of ties on the bridge were crushed to pieces.

PROBABLE FATAL CUTTING.

As a result of a boyish quarrel, James Byrnes, the fourteen-year-old son of J. J. Byrnes, the Lexington printer, lies in a critical condition at St. Joseph's hospital from two knife stabs in the side. He became involved in a quarrel in the Transylvania composing rooms at Lexington with Sam Geiger, aged 17 years, where both are employed, and after quitting work Saturday evening the quarrel was renewed at the door of the building and young Geiger stabbed Byrnes twice.

WHO WILL GET THE DOLL?

By far the prettiest, sweetest, handsomest and most expensive doll ever seen in Paris is now on exhibition in the show window of A. J. Winters & Co., and has caused every child that has seen it to go into raptures over it. Garth Lodge, A. O. U. W., of this city, will give a bazaar at Odd Fellows' Hall on Monday, Tuesday and Wednesday, March 5, 6, 7, and this handsome doll will be given to the child receiving the most votes. Votes will be sold at ten cents each, and every ten cents spent at the bazaar will entitle the buyer to one vote.

This is a prize well worth striving for, and every little girl in town should strive to the utmost to become the possessor of the little beauty. The contest will begin in a few days, and the Bourbon News will announce in its next issue where the ballots may be secured and where they can be deposited.

The bazaar itself will be a hummer, and decidedly different from anything of the kind ever given in Paris. Although it is given under the auspices of Garth Lodge, the ladies of Paris, who have undertaken to build a hospital here, are back of it, and when the ladies of Paris undertake anything they always carry it through successfully. The soliciting committee started out yesterday morning soliciting articles to be sold at the "Country Store," and their success was phenomenal. Not a single person approached failed to contribute, and the consequence will be some wonderful bargains may be had at the bazaar. A full list of the contributors and their contributions will be published in a later edition. Remember the dates—March 5, 6 and 7.

FOR GOOD ROADS.

Representative Richardson, of the Third district this State, proposes that the Bluegrass State shall have better roads. Monday he introduced a good roads bill in Congress providing for governmental aid in construction of roads in the various States in proportion to population. Under the terms of the bill Kentucky would get \$300,000. The State, however, would be obliged to raise a dollar for every dollar contributed by the government. First, the State would raise \$300,000. The general government would then be appealed to, and agents would be sent to Kentucky as to the regularity of the proceedings.

Huge Task.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Iowa, but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." LOOKS BAD TO US.

Just to defend ourselves from the criticisms of a few who think we have no right to criticise the acts of public officials, or to even intimate about the loose and reckless manner in which our county affairs have been run for a number of years, we want to mention one of the late contracts let by the Fiscal Court before retiring on January 1st. It paid \$2,300 for the making of the two streets on the sides of the Courthouse, the said streets containing 2,400 square yards. We ask you to examine these streets and compare them with the other streets of the city. All the streets in Paris were put into the excellent condition they are now in at a cost in round numbers of \$7,000. This means Pleasant, High, the cross streets, and Main from Tenth to the Clintonville pike.

The model street of Kentucky is the street entering the Association Race track at Lexington, it is so acknowledged by everyone. It is composed of twelve inches of stone put in three layers, each layer being rolled, and is finished with screenings. This model street cost the city of Lexington 65 cents per square yard. The Home Construction Co., which made this street referred to, rebuilt the Maysville pike in Fayette county for \$2,500 per mile, or 21 cents per square yard and oiled it.

Now you people who think the press has no business in speaking of this matter, just look over the above figures, then take a look at the streets on Broadway and Bank Row that cost the county \$2,300. After you do this we would like to know if you think the old Fiscal Court did business in a business-like manner, and if you don't believe the tax payers should be told how their money has been wasted in the county for years.

SHOULD BE LOOKED INTO.

Our attention is called almost daily by some citizen to the actually dangerous condition of the wires of the Electric Light Company in this city. Life and property are in danger of being lost at any time this plant is running. We have on several occasions called the city fathers' attention to this matter, but from the continual reports we get in regard to these old wires where the insulation has worn off it would seem that nothing has ever been done in regard to them. We have nothing against the Electric Light Co., but when its plant is allowed to get in a condition where life and property are both in danger the public demands that something should be done. If this company will not pay any attention to the grievances of the public, the city should take a hand and force them. The city should have its own electric plant, anyway.

PRETTY STRAIGHT TALK.

Mayor James O'Brien's first veto is published in full in another place and is a plain and straightforward statement of his position on the question of granting restaurant licenses where they are to be run in the same or adjoining room to a saloon. Much interest and speculation is being expressed as to how the fight will end.

We do not pretend to pose as a prophet but it is our humble opinion that this fight will eventually wind up in a hot old local option election.

WELL, I RECKON NOT.

Every few days you will meet some one who will say, "you don't publish all the news." We should say not. Not on your life. There is somebody else depending on us for a living. If we published all that happened we would be with the angels. In order to please the people we must print only the nice things said of them and leave the rest to gossip. Yes, it's a fact, we don't print all the news. It would be spicy reading, but it would be for one week only. The next week you would read our obituary, and there would be a new face in heaven. All the news is all right when it is about the other fellow.

MAYOR O'BRIEN'S VETO.

We give below Mayor O'Brien's veto in full to the ordinance granting Mr. Sammie Brannan license to run a restaurant adjoining a saloon. The veto was filed with City Clerk Adair Saturday and will be acted on by the Council Thursday evening. It is as follows:

To the Board of Council of the City of Paris.

Gentlemen: I herewith submit my reasons for vetoing the resolution granting restaurant license to Barney Brannan:

1—While the Sunday closing law can be enforced by requiring saloons and restaurants in rooms which open directly into saloons to be closed, it will be impossible to prevent the sale of whisky on Sunday if licenses are issued to conduct restaurants in the same room or in rooms, the doors of which open directly into saloons, for the reason that such doors cannot be seen by the police or the public and consequently can be used at any time with little likelihood of discovery.

2—if this license is granted, you cannot consistently refuse to grant the same sort of license to any person, similarly situated, who applies for it; as there are numerous places of this description in Paris which will want license, you will necessarily give to the proprietors of them the means and the opportunity to break the law to will, should they so desire.

3—the granting of such licenses will place at a disadvantage those saloonkeepers who obey the law or else place them in questionable position in the eyes of the public by forcing them, in order to retain their own trade, to make application for license to conduct a restaurant in connection with their saloons.

4—I am thoroughly convinced that the effort to obtain license for this place, without requiring the doors opening from it into the saloon to be closed is being made for the purpose of hampering my efforts to close the saloons on Sunday. Taken in connection with the application, some weeks ago, of a saloonkeeper for a restaurant license, and the statement of a member of this Council that these doors should

not be closed this statement being made after the applicant for this license, who claims to be the sole owner of the place, had agreed to close them—it is clearly apparent, at least to me, that the object sought to be attained in this matter is to place the Council, if it grants this license, in such a position that it cannot consistently refuse to grant the application made by any saloonkeeper for a restaurant license, thereby rendering it impossible for the police to enforce the Sunday closing ordinance.

5—License to conduct a restaurant in rooms which open directly into saloons should only be granted upon the condition that such places close on Sunday.

6—Before granting this license, the Council should adopt some general rule governing such matters; otherwise, this same trouble will arise whenever application is made for a license of this kind.

7—the conditions sought to be imposed upon Mr. Brannan are fair and reasonable, and would work no hardship upon him; at the very worst, he will be in the same position as every other restaurant keeper whose place opens into a saloon. He has no right to expect to be made an exception of, and if he is not willing to be placed upon an equality with others in the same business, he is not entitled to license.

Respectfully submitted,
JAMES M. O'BRIEN, Mayor.
Feb. 16, 1906.

**DIED SUDDENLY
OF HEART DISEASE.**

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Material Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic.

But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitome of Medicine, says of it:

"...so much compressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinson's (medicinal principle extracted from Stone root) and is now attending his business. Heretofore, physicians have, of course, had no remedy for so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinson unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

DEATHS.

John Poyntz Nelson, one of the most brilliant of the younger journalists of Kentucky, died at 11 o'clock at his former home, Beavers Dam, Va.

John A. McCall, until recently president of the New York Life Insurance Company, died at 5:30 o'clock this afternoon at the Laurel House, in Lakewood, N. J., where he was taken three weeks ago in the hope that the change might benefit his health, which suffered a breakdown two months ago, during the insurance investigation.

The remains of Mrs. Chornie Kern Anderson, wife of Dr. Bruce Anderson, were laid to rest in the Paris Cemetery Saturday afternoon. The procession left the residence of Mrs. Lizzie Walker, on High street, at 2 o'clock. The services were held at the grave, conducted by Elder Carey L. Morgan. A large concourse of sympathizing friends and relatives of this most estimable and lovely young woman were in attendance, attesting the high regard and esteem in which the deceased was held in this community. The floral offerings were beautiful.

Mr. G. W. Myers, aged 73 years, died at the home of his daughter, Mrs. Mary Whaley, in Millersburg, yesterday afternoon at 3 o'clock, after an illness of months with stomach trouble.

Mr. Myers was born in Bath county, where he engaged in farming and stock trading until he moved to this city seventeen years ago. Since living here he has been engaged in the grocery business and other pursuits, until his health failed several years ago, which forced him to retire to private life. He was successful in business, and was a man of the highest integrity. He was a kind and devoted husband and an affectionate father. A few months ago he and his wife moved from their home on Mt. Airy to live with their daughter, Mrs. Whaley, in Millersburg. He is survived by his wife, Mrs. Nannie Myers, and four daughters, Mrs. A. T. Forsyth, of this city; Mrs. Mary Whaley, of Millersburg; Mrs. Lucy Black and Mrs. Ida M. Desha, of Greenastle, Ind.

Funeral services will be held this (Tuesday) afternoon at 3:30 o'clock at the Millersburg Methodist Church, conducted by Rev. B. C. Horton. Burial in Millersburg Cemetery.

**IN MEMORY OF MRS. J. W.
THOMAS.**

The evidence of an all-wise purpose running through nature is a token of immortality. The constellations, the birds and flowers, atoms and molecules each have their place in the plan that extends through nature, and it is unreasonable that all inanimate nature should fulfill a mission and destiny, while man should perish or that the body should last longer than the soul last longer than the soul.

The mysteries of life give hope of its continuance beyond the grave. Could we understand every other problem but that of death we might conclude that man's eternal home is the tomb, but when we cannot understand the budding flowers, it becomes no greater mystery that we should live again than that we are living now, and not so great a mystery that we should continue to live as that we began to live.

When the cold North wind comes there is something within the heart of the little bird that bids it fly Southward. This voice within its breast is not a deception, for it finds a land of sunshine and flower. From the harmony of the universe we believe that we will find a home of light and love when we follow the impulses that are ever throbbing within our hearts, and we believe that the Providence which cares for the sparrow will not be deaf to humanity's cry.

There is no death! "O death, where is thy sting? O grave, where is thy victory?" The granite rocks disorganize to make soil for plants and future life. The leaves fall, the flowers fade and pass away. "They only wait through the wintry hours the coming of the May." An angel form walks over the earth. He bears our best loved ones away, and then we call them "dead."

In the death of Mrs. John W. Thomas, our grandmother, He has taken the best and noblest. He has left our hearts all desolate, yet we know that she has only gone before, that she only awaits us there. Her life, one long sacrifice for others, has spread its influence among others for good. The smile was always ready. She was cheerful, kind and the truest of Christian characters. For her loss we need not mourn for she bath left us her virtues as jewels to keep, so let the pure and beautiful sleep. May our heavenly Father lead us in her footsteps. May He heal the broken hearts of those who watched so tenderly and tearfully by her bedside and keep safe in His arms the aged grandfather who loved and trusted her so well, for it will not be long till he will see her face to face. May He keep those dear ones in the fair-off Southern land who grieve for her but could not come. We see but darkly through the glass as now, but some day we shall know as we are known.

"Never more to walk alone
In the dawning of the morning,
When the mists have rolled away." G.G.

THE FAIR

Likable China at Likable
Prices.

Our China always deserves the adjective "likable." We take the utmost pains to procure the prettiest patterns the market affords, and no woman of taste can take a look through our Chinaware counters without being full of admiration for the beauty and grace of the designs with which our fancy China is adorned. And the prices are equally likable. They are always much below what you would expect such handsome patterns and nice qualities to sell for, and much below what would necessarily be asked by any store that did not, as THE FAIR does, import its own China. Of course, the prices tell little without a sight of the ware; but we cannot refrain from giving a few quotations:

Plain Plates—35c, 48c and 59c a set.

Handsome Decorated Plates—69c, 85c and 98c a set.

Bowls and Pitchers—98c a pair.

Meat Dishes—10c to 98c.

Vegetable Bowls—10c to 48c.

Pitchers—10c to \$1,

and so on, at a similarly low range of prices all through the stock.

Everything is Open Stock. It is worth while to remember that all our China is of the "open stock" kind. You can build up a dinner set, dish by dish, from the same pattern, adding the pieces just as your means allow—and if you break a dish at any time you can readily get it. The "open stock" way of selling China is the only modern, progressive way; and is one of the mainstays of THE FAIR'S success.
